

**SECRET**

17 DEC 1961

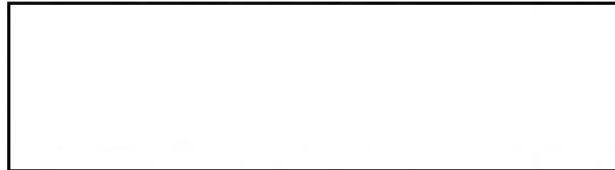

MEMORANDUM FOR: Chief, SR Division

SUBJECT : Elimination of Staff Agent Support Projects

REFERENCE : DD/P Memorandum dated 7 December 1961,  
same subject

1. Compliance with the provisions of referenced memorandum will require (a) termination of projects solely designed to support staff agents and transfer of the costs to Station Support, and (b) elimination of staff agents from projects which also include other activities and transfer of the costs to Station Support.

2. SR Division projects in the first category include the following, with the expiration date of current approval as indicated:

25X1A2D1

The above projects should be terminated as soon as appropriate administrative measures to transfer the staff agents from the Division's Foreign Field Project Annex to the appropriate Station and Base staffing complements can be accomplished. In order to simplify procedures, however, formal individual termination actions [redacted] will not be necessary, and, upon completion of the administrative steps, project termination can be effected by a memorandum of notification to ODP/PO setting forth the project cryptonym and effective date of termination. Such memoranda may include one or more projects.

25X1A

25X1A2D1

3. Project [redacted], expiring 31 July 1962, is in the second category. The staff agent may be transferred from this project as an administrative matter without any formal project action.

4. If there are reasons why any of the above projects should not be handled as indicated, or if there any other projects which have been inadvertently omitted, please inform DDP
